

New CHFT Base Facility well underway

The ground was broken for our new base facility in Waimea on January 14, 1982. Kahuna (Hawaiian priest) Joseph Kahananui blessed the area thus freeing our project from any possible mishaps and bad spirits. And so far indeed things have

been going very well: as of late May the entire framing was complete, the roof was on and finish work had started. Completion is scheduled for early October and we hope to move in before November of this year.
